

Seven Sisters Münchner

Seven Sisters is a Vienna Lager named for the 7 original breweries who hosted the Oktoberfest celebration in Munich. It is a rich amber Bavarian lager with a full, round body and a malty finish. It pairs nicely with pork, chicken and sausages, but 7 Sisters is smooth enough to enjoy by itself or with a friend. We try to serve it year round, but if it's off tap, don't worry, there's more on the way! Prost!

Munich Helles

A golden lager in the traditional Munich brewing style. This is what you find on tap in Bavaria instead of a Pilsener. With more malt character and less hop bitterness than a pilsener, our Helles is full flavored but crisp. Slightly lighter bodied than our Seven Sisters Munchner.

Kilt Lifter Scotch Ale

Highlanders and Lowlanders agree, a good kilt lifting on occasion raises the spirits. With gentle roasted graininess and a touch of sweetness, Kilt Lifter is warm and strong enough for all ye lads, lasses and sheep. Put it in yer belly!

Kartoon Brune

This is a little known Belgian style in America. It is an Abbey style Brown Ale. Walnut in color, it has the famous Belgian fruity and estery nose with a rich sweetness backed up with notes of roasted grain and banana. We brew this rare ale with seven different German and Belgian malts and an exotic “mystery” spice once favored by monks and mystic healers. It is then fermented twice, once in the fermentor and the second time in the cask to impart a gentle dryness and to mellow the wild Belgian character a bit. This beer will change in character and balance over time, so try it often and watch it “grow up”.

Hopgasm

HopGasm is Brewmaster Kevin McNerney's inaugural release at 5 Seasons. HopGasm is a west coast India Pale Ale, bold in every sense. It invites you with a nose far more intriguing than most IPAs. We use 5 different hops, including Simcoe and Amarillo, which gives an incredibly rich bouquet and a pleasurable mouthfeel. It's a bit over 7% ABV, but a solid malt backbone and a sumptuous aftertaste will make you want multiple HopGasms.

Two Pence Porter

120 Normal o MicrosoftInternetExplorer4 Porter dates from the 1720's and is the predecessor to Stout. It was called the “workman's beer” as it was strong, but nutritious. Ours is a robust porter with abundant body and a deep garnet, almost ebony color. It is slightly sweet with chocolate & coffee aromas. Hop and roasted grain flavors are present, balanced with imported English hops.
